ANTI SWEAT HEATERS

Reduce Your ENERGY  
Save MONEY Off Your Bill  
Rebates Are Available\*

## WHAT ARE ANTI SWEAT HEATER CONTROLS

Anti Sweat Heaters assure proper heater function of your commercial refrigerator and commercial freezer equipment while providing the most savings achievable, with out any condensation.

Standard anti-sweat heaters are set to a constant temperature and run 100% of the time—a wasteful and costly strategy. The ControlTec AS-20z Anti Sweat Heater revolutionizes anti-sweat technology by providing the automation, management, and reporting needed to reduce costs as well as document savings.

## CONTROL YOUR CARBON FOOTPRINT

Make a greater impact on the economy by consuming less. Use less energy and gain savings on your utility bill. Anti Sweat Heater Controls automatically turn off anti-sweat heaters—on a case-by-case basis—when conditions allow, providing maximum utility savings while maintaining equipment integrity.

The ControlTec AS-20z provides much tighter monitoring over individual commercial refrigerator and commercial freezer case temperatures, which results in optimal compressor performance and increased energy efficiency.

Cost to operate standard temp doors with frame heat only (non-heated glass, .55 Amps/door, PG&E rate schedules A2, A6, and A10).

- Cost to heat frames for one year
- Cost to heat frames for one year using ASH controls

\*1 year labor warranty

\*5 year heater control warranty

\*Rebates not available in all areas

\*\*Communications features require additional CommZ module

## MONITOR YOUR ASSETS\*\*

The AS-20z adds multiple levels of product protection and safety. If abnormal case conditions are detected, an in-store alarm is triggered, an automated call is placed to our 24-hour call center and service technicians are dispatched. The ControlTec AS-20z system stores, tracks, and reports data for any given time period, allowing you to fine-tune case management for performance and efficiency.
